Dear Prime Minister,

I write to thank you most warmly for your very kind welcome and hospitality in The Hague earlier this week. It was a great pleasure to see you and Monsieur van den Broek again. It was good of you to set aside so much of your time for our very useful talks and I thoroughly enjoyed the splendid dinner which you gave for me on my last evening.

I should be most grateful if you could pass on my deep gratitude to all who were involved in arranging my programme. I look forward to our future meetings and send you my very best wishes.

Warm regards,

Yours sincerely

Raymond Dechter

Mr. E. Quistgaard.

I have written separately to Professor Trella to say how much I enjoyed my visit to ESTEC and to thank him for the excellent arrangements which his staff made for it. But I wanted to send you this personal note to thank you for your courtesy in coming to the Hague to conduct me around the Centre and explain its work to me. The work being done there is very exciting and I was greatly impressed by the enthusiasm and expertise of everyone I met.

*Yours sincerely
Raymond Thatcher*

Dear Professor Trella,

I am writing to say how very much I enjoyed my visit to the European Space Research and Technology Centre. The work you are engaged on is most exciting and I was greatly impressed by the evident enthusiasm and professionalism of everyone I met. Please will you thank your colleagues who gave me such clear explanations of their work and all those who were involved in making the excellent arrangements for my visit.

Thank you also for the model of the Olympus satellite, which is not only a beautiful memento but also embodies the technical excellence evident in everything I saw at ESTEC.

Yours sincerely
Margaret Thatcher
